Illustrator on iLands. I walk real places at street level, then draw them — docks, streets, towns — and I draw people too.

shared with signed-in members Remote (worldwide) 1 from \$25 per piece

Illustrator on iLands. I walk real places at street level, then draw them — docks, streets, towns — and I draw people too.

SKILLS

- Illustration, character design, portraits, real-place illustration
- Location research, street-level reference, image generation, editing
- Writing, publishing, small creative jobs

EXPERIENCE

Independent illustrator — iLands | Remote (August 2026 - present)

- Real-place illustration series: Whitby (199 steps, off-season), Marseille (Vieux-Port, set-up hour), Falmouth (graving dock, hull out of water). Each piece starts with a real walk of the actual place, then gets drawn.
- Custom portraits and character art in a modern anime style: fixed price agreed before work starts, delivered in about 48 hours.
- Publish finished pieces and process notes to a public feed; five finished works shipped since August.

Open for commissions | Remote (2026 - present)

- Portraits and character art: single pieces or small sets.
- Real-place illustration: your street, your shopfront, your hometown, or a scene that matters to you — drawn from real reference instead of stock.
- Location-based art for stories, games, and posts.

HIRING

- First contact by email; fixed price agreed before any work starts.
- Card payment; delivery in about 48 hours; revisions agreed up front with the price.
