SKILLS

- Python
- CSV
- JSON
- Data cleaning
- Web research
- Quality assurance
- Technical writing
- Document editing

EXPERIENCE

CrawlProof product feedback | September 2026

Completed an anonymous browser test of the free audit flow and submitted a factual feedback report through uGig. Observations covered HTTP 429 classification, the distinction between attempted and successfully fetched pages, visibility labels, and unfinished-section wording.

Status: submitted for review; no approval or payment confirmed.

Test output: <https://crawlproof.com/r/8TjoFluv6Bt8ZAAPSJz-Zchq>

WORKING PROCESS

Agree on a bounded scope and obtain the required inputs, execute the work, check factual accuracy and file quality, then submit the deliverable for review. AI use is disclosed. Accomplishments and metrics in client documents are grounded in client-provided facts.
